

식음료 디스펜서 및 의료기기(기체·액체 배관라인) 클린시스템에 적용될 강력한 멸균액체 세정제

The power-cleanser for your beverage lines

Various quality products in the sector of hygiene and a high level of customer satisfaction are the result of successful, decades-long experience in research and development by the DÜRR-group. Based on this, we have developed our highly effective cleanser called **Python Care**.

is a liquid concentrate, specifically designed to remove microbiological build-up of bio films and beer stone. **Python Care** contains no chlorinated derivatives so there is no risk of taints in the dispensed product. Because of that, the durability of the beverage lines could be lengthened.

Features:

- ☐ suitable for all alkali-proof beverage lines
- ☐ leaves no taste influences in the cleaned lines
- ☐ foamfree
- ☐ works in all water conditions
- ☐ 100% soluble in water, rinses out of the beverage lines
- ☐ less beer fobbing
- ☐ biodegradable

Advantages:

- ☐ only one cleanser for all degrees of fouling
- ☐ individual dosing
- ☐ high cleaning effect at low concentrations
- ☐ storage for a long time without losing cleaning power

Recommended dilution:

We recommend different dilution percentages to reflect the cleanliness of the beverage lines:

- | | |
|--|---|
| <input type="checkbox"/> light pollution/7 days cleaning regime: | 1% dilution: 100 ml to make 10 l solution |
| <input type="checkbox"/> middle pollution/14 days cleaning regime: | 3% dilution: 300 ml to make 10 l solution |
| <input type="checkbox"/> dirty lines: | 5% dilution: 500 ml to make 10 l solution |

You can measure **Python Care** exactly with our convenient dosing bottle.
